

Welcome to HAGER Consulting & Training Switzerland with 4 languages

More fun and savings when working and learning - by humane working techniques and process data

Testimonials

- "Putting the analysis of stressors resulting from employees' work processes at the beginning of optimising or improving operational processes is an exciting approach."
**Objectbay Software Austria Mag. Hannes Wambach VP Growth & Business Development
Authorised signatory**
- "HAGER Engineering offers a unique combination of IT and process knowledge to support international projects and organisations. Stressors as additional influencing factors on business process performance are an integral part of its approach."
Dr Jürgen Fritz, department manager in the aerospace industry
